Good Morning Residents,

Thank you to all of those that came out this past weekend re the information and start-up session of the Garden Plots.

Of those that are interested in planting in the garden beds, a follow-up planting session has been booked for this coming Saturday 1230 - May 23rd 2020.

The planting beds are filled with top soil and are have filtered drain bodies at the bottom of each planter. Watering can be achieved through the hose bib on the North side of the 2000 building to the right of the sales center (pictures attached).

Justin Scott, our resident green thumb, will be managing the plots assignment for/with the interested residents.

He can be reached at justindscott85@gmail.com

Thank you,

TRUMAN
